CONSTANT COMFORT™ SX 2300 Air Conditioner

Heating & Cooling Products

Come home to quiet. Because the Day & Night Constant Comfort™ SX 2300 runs so smoothly, it's no surprise that this air conditioner is equally quiet and efficient. Even the two-speed fan motor reduces noise by running mostly on lower speed. Every component is designed to make your comfort level go up and your monthly cooling bills go down. Durable materials and other weather-guard features add long life. The Constant Comfort SX 2300 also protects your investment with a filter dryer for moisture removal from the refrigerant, a solidly constructed cabinet with sturdy corner posts, and finishes with appliance-grade paint.

R410A is an EPA-approved, environmentally sound refrigerant.

Every Day & Night unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty*, which gives you a replacement unit if the compressor or outdoor coil should fail within the first year. You also get up to a 10 year^s parts and compressor limited warranty.* And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

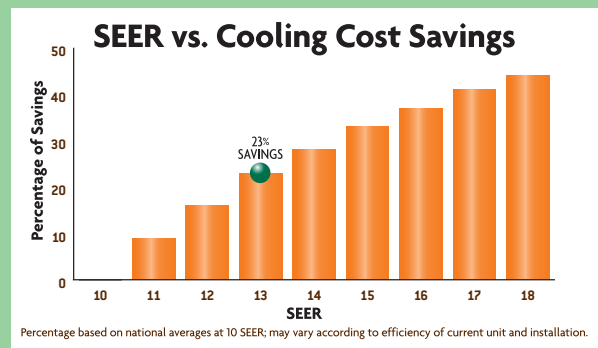

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to DayandNightComfort.com.

^sSubject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at DayandNightComfort.com for complete details.

Save on energy with high efficiency cooling. SEER[†] is the industry term for rating efficiency. At 13 SEER, this air conditioner can reduce cooling bills by up to 23% compared to many older units.

[†]SEER stands for Seasonal Energy Efficiency Ratio.

The difference is Day & Night.

1. Quiet

The Copeland Scroll® compressor operates without noisy pistons and comes with a sound blanket to reduce compressor sound levels.

2. Durable

The painted, galvanized steel cabinet features a powder-coat, baked-on finish and a coated inlet grille with narrower

spacing to provide maximum protection as it allows for proper airflow and easy coil cleaning.

3. Efficient

The Copeland Scroll® compressor and the 7 mm copper tubing with aluminum fin coils work collectively to save on energy.

4. Aerodynamic

The two-speed fan motor operates most of the time on quieter, lower speed. Aerodynamic air discharge design reduces operating sounds.

5. Service Friendly

The Comfort Alert® diagnostic system improves accuracy if the unit needs checking. The Plug & Play feature simplifies wiring and provides easy access to speed up service.

PURE COMFORT FOR ALL SEASONS.

Since heating and cooling systems are designed to work together, Day & Night Heating & Cooling Products strongly recommends that you have your dealer install both at the same time for optimum efficiency, savings, and comfort.

- a. **Humidifier** enhances comfort by reducing dryness in the air.
- b. **Air Cleaner** filters out many indoor air pollutants so the air in your home is cleaner.
- c. **Set-Back Thermostat** allows you to customize heating and cooling levels and also save energy.
- d. **Furnace** is designed for maximum comfort and high efficiency and built rugged for years of operation.
- e. **Air Conditioner** keeps your home cool and comfortable while saving on energy.
- f. **Evaporator/Indoor Coil**, to match your Day & Night air conditioner and furnace, assures you of optimum performance.
- g. **UV Lights** help prevent the growth of microbes on the coils.

* Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

♦ For information regarding furnace or fan coil options that can increase the energy efficiency of selected Day & Night air conditioners (SEER) and heat pumps (SEER and HSPF), go to DayandNightComfort.com and look for “Energy Savings” on the menu.

^ This Day & Night product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)

All systems tested and listed by the appropriate agencies.
