

SXT+  
TWO-STAGE  
HEAT PUMP

UP TO  
15 OR 17 SEER

**KeepRite**<sup>®</sup>

This KeepRite® heat pump comes with the newest cooling and heating technology and quality components to give you the ultimate in climate control. You get outstanding quiet, maximum energy savings, and exceptional warranties to assure you of long-lasting satisfaction.

### Relax in the quiet.

What makes the KeepRite SXT+ run so quietly? It's all in the details.

Additions such as a compressor shell enclosure and deluxe sound blanket, aerodynamic top, and two-speed fan motor all contribute to the quiet operation. The SXT+ is designed to work with our 80% to 95% AFUE<sup>†</sup> variable-speed, two-stage gas furnace or variable-speed fan coil for year-round comfort.

### Let years go by.

This heat pump lets you take durability for granted. The two-stage Copeland® Scroll UltraTech™ compressor has fewer moving parts to last longer and provides extra cooling at higher temperatures or extra heating at lower temperatures by automatically modulating up to the higher stage. A filter drier removes moisture and debris that can damage the refrigeration system. The appliance-grade paint finish of the cabinet holds up to the weather.

### Add up the savings.

The highest efficiency rating in the KeepRite line means your energy bills go down and stay down. Matching equipment can provide efficiencies up to 17 SEER<sup>†</sup>/8.5 HSPF<sup>†</sup> (the industry terms used to measure energy efficiency). So you could save up to 41% compared to many older units!

<sup>†</sup>AFUE stands for Annual Fuel Utilization Efficiency, SEER stands for Seasonal Energy Efficiency Ratio, and HSPF stands for Heating Seasonal Performance Factor. Rating varies by model from 15 up to 17 SEER depending on indoor unit matches.

Capacity/SEER Chart	
2 ton up to 15 SEER	4 ton up to 15 SEER
3 ton up to 17 SEER	5 ton up to 15 SEER

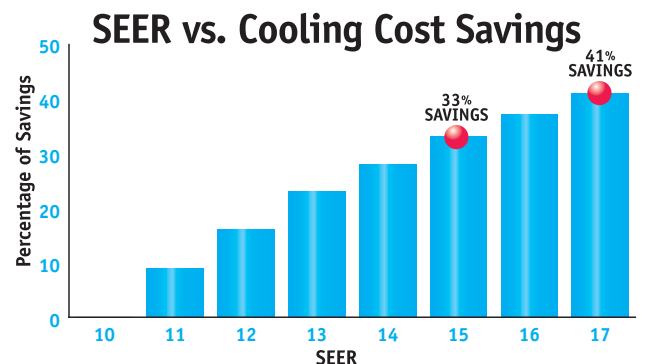

### Stay protected.

We've added our No Hassle Replacement™ limited warranty to give you extra security. Every KeepRite unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty\*, which gives you a replacement unit if the compressor or outdoor coil should fail within the first ten years. You also get up to a 10 year<sup>s</sup> parts and compressor limited warranty.\* And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

\*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to KeepRite.com.

<sup>†</sup>Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at KeepRite.com for complete details.

Percentage based on national averages at 10 SEER; may vary according to efficiency of current unit and installation.

## SXT+ TWO-STAGE HEAT PUMP

### 1 Quiet

The two-stage Copeland® Scroll UltraTech™ compressor operates without noisy pistons and comes with a sound blanket to reduce compressor sound levels. Two-stage operation means it runs mostly in the lower, quieter stage and switches to the higher stage for more cooling or heating.

### 2 Durable

The painted, galvanized steel cabinet features a powder-coat, baked-on finish and a coated inlet grille with narrower spacing to provide maximum protection as it allows for proper airflow and easy coil cleaning.

### 3 Efficient

The scroll compressor and 7 mm copper tubing with aluminum fin coils work collectively to save on energy.

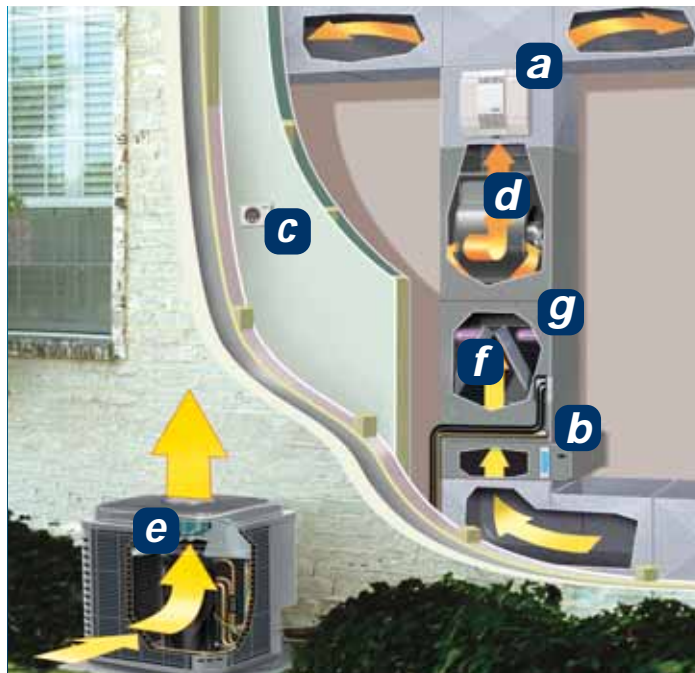

### 4 Smooth Operation

The two-speed fan motor operates most of the time on quieter, lower speed. Aerodynamic air discharge design reduces operating sounds. Matching with the variable-speed indoor fan allows for whisper-quiet indoor operation.

### 5 Service Friendly

The Comfort Alert® II diagnostic system has all of the standard Comfort Alert® features. Plus, it can alert homeowners to call for service before a problem develops by working with an optional Comfort Alert® II compatible thermostat.

Keep warm, keep cool with KeepRite systems.

Since heating and cooling systems are designed to work together, it is strongly recommended that your dealer install this high-end two-stage cooling and heating product with our top-of-the-line VS 80, VS 90 or VS 95 gas furnace with two-stage heating and variable-speed blower or matching variable-speed fan coil to deliver optimum efficiency, savings and comfort.

- Humidifier enhances comfort by reducing dryness in the air.
- Air Cleaner filters out many indoor air pollutants so the air in your home is cleaner.
- Set-Back Thermostat allows you to customize heating and cooling levels and also save energy.
- Variable-Speed Fan Coil is designed for maximum comfort and high efficiency, and built rugged for years of operation. Variable-speed runs quieter and maximizes inside humidity control.
- Two-Stage Heat Pump keeps your home cool in summer and warm in winter while saving on energy.
- Evaporator/Indoor Coil, to match your KeepRite heat pump, assures you of optimum performance.
- UV Lights help prevent the growth of microbes on the coils.

The best choice for your home.

\* Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit [www.energystar.gov](http://www.energystar.gov).

♦ For information regarding furnace or fan coil options that can increase the energy efficiency of selected KeepRite air conditioners (SEER) and heat pumps (SEER and HSPF), go to [KeepRite.com](http://KeepRite.com) and look for “Energy Savings” on the menu.

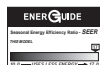

▲ This KeepRite product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)
