SmartComfort™ DLX 95

DLX 95

Gas Furnace

The Tempstar® SmartComfort™ DLX 95 Gas Furnace

Tempstar® professionals take pride in bringing you the latest technology in home comfort, with the goal of surpassing your expectations in energy efficiency and dependability. From engineering to design to industry-leading warranties, we are dedicated to always delivering quality you can feel.

Designed With Your Comfort In Mind

The Tempstar® SmartComfort™ DLX 95 comes equipped with solid doors and a thermal-lined insulated cabinet, which help reduce operating noise. And for maximum comfort, the SmartComfort DLX 95 employs timed blower delays. For each cycle, these automatically delay the blower startup until the heat exchanger is hot. This helps prevent blowing cold air and delays the blower shut off to ensure that maximum heat is extracted from the furnace.

1

Reliable Direct Hot Surface Ignition System features an advanced silicon nitride igniter for greater reliability.

2

Durable RPJ® III primary heat exchanger has a ripple-edged design that forces more heat to the outside surface for higher efficiencies. Made of corrosion-resistant, weld-free stainless steel.

3

Energy Savings Multispeed PCS circulation blower, along with the induced draft blower assembly and gas valve, help make the SmartComfort DLX 95 fuel-efficient.

4

Quiet The solid door design and insulated, thermally lined cabinet reduce operating noise.

5

System Monitoring State-of-the-art electronic controls monitor system operation for faster, easier system diagnostics.

The Savings Speak For Themselves

The SmartComfort DLX 95 has been redesigned with enhanced efficiency in mind. The unit's 95% AFUE[†] rating means that the SmartComfort DLX 95 will make your fuel dollars go as far as possible. The weld-free clamshell construction and the integrated ripple-edged design of the patented RPJ[®] III heat exchanger increase heat transfer. The stainless steel secondary heat exchanger resists corrosion and adds to the efficiency.

[†]AFUE stands for Annual Fuel Utilization Efficiency.

Higher AFUE Equals Greater Energy Savings

60 AFUE 64 AFUE 70 AFUE 80 AFUE 90 AFUE 92 AFUE 95 AFUE
Percentage based on national averages; may vary according to efficiency of current unit and installation.

A Furnace You Can Count On

The SmartComfort DLX 95 is built to be with you for a long, long time. The direct vent option uses clean outdoor air for combustion, which minimizes exposure to chemicals that can corrode a heat exchanger. Also, the advanced ignition system uses space-age materials for unmatched reliability.

Our Word On It—In Writing

Every Tempstar unit is backed by exceptional warranties, including our No Hassle Replacement[™] limited warranty*, which gives you a replacement unit if the heat exchanger should fail within the first year. You also get up to a 10 year[§] parts limited warranty* and a lifetime limited warranty* on the stainless steel heat exchanger. And don't forget to ask your dealer about HELP[®] extended service agreements for additional worry-free protection for parts and labor coverage.

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to Tempstar.com.

[§]Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at Tempstar.com for complete details.

Complete Line. Complete Comfort.

- a** HUMIDIFIER enhances comfort by reducing dryness in the air.
- b** AIR CLEANER filters out many indoor air pollutants so the air in your home is cleaner.
- c** SET-BACK THERMOSTAT allows you to customize heating and cooling levels and also save energy.
- d** FURNACE is designed for maximum comfort and high efficiency and built rugged for years of operation.
- e** AIR CONDITIONER keeps your home cool and comfortable while saving on energy.
- f** EVAPORATOR/ INDOOR COIL matches your Tempstar air conditioner and furnace to ensure great performance.
- g** UV LIGHTS help prevent the growth of mold spores on the coils.

*AFUE stands for Annual Fuel Utilization Efficiency. Higher number = Greater efficiency.

^This Tempstar product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)

All systems tested and listed by the appropriate agencies.
