

MINI-SPLIT DUCTLESS
AIR CONDITIONERS
AND HEAT Pumps

UP TO **22 SEER**

KeepRite®

Comfort Meets Economy

Easy solve for difficult spaces.

KeepRite® Mini-Split Ductless air conditioners and heat pumps are designed to fit comfortably into virtually any living space—especially those presenting special challenges such as rooms separated from the main heating and cooling system. One of the main benefits of these models is their flexibility. They feature motorized louvers that can either sweep to spread conditioned air or be “locked in” in order to concentrate on a specific area of the house. And thanks to the slim, compact cabinet design, these models can also seamlessly blend into most interior designs.

Mini-Split Ductless Air Conditioners and Heat Pumps

High Efficiency

Delivers up to 22 SEER cooling for lower operating costs

Easy-To-Use Infrared Remote

Sophisticated and intuitive, it lets the user take control of home comfort on their terms

Easy-To-Remove Filter

Helps maintain comfort, can be cleaned in a utility sink

LED Display

Allows the user to quickly monitor the temperature set point, mode setting and system diagnostics

Sleep Mode Setting

Automatically adjusts temperature and fan speed at night for additional money savings

Exceptional efficiency.

KeepRite Mini-Split Ductless air conditioners and heat pumps offer outstanding reliability and efficiency.

They deliver ratings up to 22 SEER* and up to 10 HSPF* that help lower your energy bills, compared to an older 10 SEER unit. And they're designed to give you years of quiet, dependable performance.

*SEER stands for Seasonal Energy Efficiency Ratio and HSPF stands for Heating Seasonal Performance Factor.

Warranty coverage.

KeepRite units are backed by exceptional warranties.

You get a 7 year compressor limited warranty and a 5 year parts limited warranty.

R410A is an EPA-approved, environmentally sound refrigerant.
