

Additional Two-Year No Hassle Warranty

Homeowner's Registration Form

Arcoaire has partnered with your Elite Dealer to extend two additional years of No Hassle Limited Warranty coverage to any qualifying products you have purchased. The Arcoaire® No Hassle Limited Warranty allows a one-time replacement with a comparable Arcoaire unit, provided the compressor, heat exchanger, coil, or wall control fails due to defect during the applicable limited warranty period.

No Hassle Limited Warranty periods vary by product and are not available on all units. Please make sure your Elite Dealer makes note of both the base No Hassle period and the extended period on the form below, and that you keep a copy of this form for your records. Since No Hassle coverage varies by product, it is very important that you refer to the warranty certificates included with your unit(s) for the official coverage periods as well as all applicable conditions and limitations.
